RECORD OF INTERVIEW

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant's attorney thanks the Examiner for the interview of 2/23/05. While there was no resolution of issues resulting from the interview, it enabled applicant's attorney to get a clear understanding of the Examiner's opinion and to express his opinion that the claims in the application are clearly distinguishable from the Nguyen, U.S. Patent #6,584,498 and therefore not properly rejected under 35 USC 102(e). All the claims call for two separate screens, one for preselection of downloading options and another for initial information from the networks. Claim 14 further distinguishes in that the preamble reference to a server which has a data link to client machines and the network, constitutes a substantive

limitation to the claim. Neither use of separate screens, one for preselection of downloading options and another for displaying initial information from the network, nor a server which has data links to the client's machine and the network, are disclosed in Nguyen or inherent in its teaching.

The Examiner said his response would take into account the applicant's position. It is applicant's attorneys understanding from our conversation that this response should be forthcoming shortly.

Respectfully submitted,
